Occupation Ceilings

An occupation ceiling may be applied to invitations to apply to migrate issued under the points based skilled visas of the migration program. This means there will be a limit on how many Expressions of Interest are issued for skilled migration from an occupation group. This ensures that the skilled migration program is not dominated by a small number of occupations.

The following occupations have reached their annual occupational ceiling for this financial year:

- · Chemical and Materials Engineers
- ICT Business & System Analysts
- Electronic Engineers
- Telecommunications Engineering Professionals
- Other Engineering Professionals
- Software and Application Programmers.

No further invitations can be issued for these occupation groups until 1 July 2013. This limitation does not apply to Employer Sponsored or Business Innovation and Investment visa classes. For the state and territory nominated visas, a state or territory will not be able to nominate you if your nominated occupation has reached its occupation ceiling. For clients with an Expression Of Interest in these occupation groups, your Expression Of Interest will remain valid for two years from the date you submitted your Expression Of Interest.

The below occupation reached 75 per cent or more of its ceiling level this financial year.

Industrial, Mechanical and Production Engineers (1280/1620)

Any ceiling reached will be reset on 1 July 2013.

The below table shows the occupation ceiling for the 2012-2013 program year for each occupation on the skilled occupation lists at the four-digit ANZSCO code unit group, and the number of invitations issued to that occupation this program year to the date specified.
